

Village Vet

 **Vet24** 
It's not out of hours for us

Why are we 'the vet your pet would choose'?

We offer the best start possible.

Our Kitten and Puppy Programmes involve regular health examinations as well as vaccinations during the early months. All at the same cost as many vets charge for the vaccinations alone. This way your pet can get to know the local Village Vet practice and all our caring staff. Trips to the vets do not have to be scary!

We own pets ourselves.

As a result we understand your needs as a pet owner. We aim to make the visit to our practices as convenient and stress-free as possible, with plenty of cuddles for your pet! We also offer late night and weekend appointments for your convenience.

We want to help your pet as quickly as possible with minimum fuss.

At Village Vet we have veterinary expertise and facilities far exceeding the norm. As a result, we rarely have to refer your pet outside of the group and can diagnose and fix problems quickly and efficiently. Getting to the bottom of the problem immediately often saves your pet undue stress and you the extra cost of ongoing 'grumbling' illness.

It's not out of hours for us.

We offer [24 hour emergency cover](#) at all our practices should your pet need help at night. In addition, our Hampstead practice offers through-the-night vet and nurse services so that you can drop in at any time.

We offer a full range of extra services for your pet including: [acupuncture](#), [hydrotherapy](#), a [boarding cattery](#) and a [Pet Privileges](#) card rewarding you for keeping your pet healthy through regular health checks and Preventative Healthcare treatments.

Our safety record is second to none.

We use only the safest anaesthetics and best pain relief available. We also have state-of-the-art anaesthetic monitoring equipment, rarely available in other practices.

Our nurses are superb.

If your pet has to stay with us you can be sure that individual care and attention will be given to your pet by a specifically allocated nurse. Cuddles, fuss and attention when recovering from an anaesthetic make all the difference to your pet.

Caring for the environment is important to your pet.

Our support of the Durrell Tamarin Project resulted in the planting of 5000 trees last year alone. We also support local initiatives including those aimed at protecting local parks.

We realise we are far from perfect. With your help and feedback, we aim to continuously improve everything we do for your pet.

And finally, what about you? **You can feel confident that you are doing the absolute best for your pet when you use Village Vet.**
