

# Village Vet

## Brookmans Park

At The Village Vet Brookmans Park we aim to provide a caring and relaxed environment for both pets and their owners. The Clinic is equipped to a high standard with a hospital facility for pets which need to stay with us overnight. We aim to provide the best possible start in life for all puppies and kittens with a health program that includes free monthly check-ups for the first six months of their lives. We also offer a comprehensive "well pet" program including free dental and weight checks and free consultations for clients requiring flea or de worming treatments for their pets.

We stock a wide variety of pet food and products to supply all your pets' needs and offer an ordering service for those with special requirements! Consultations are by appointment and street-parking is available close to the Clinic. All clients registered with us are entitled to use the 24 hour emergency service provided by the Royal Veterinary College nearby.
