

2nd September

To all at Village Vets

I just want to say "thank you" for the care and attention you gave my cat, Cleo, over the past couple of days. She was obviously very well looked after and it made me feel better to see that she actually looked brighter than when we brought her to you, even though she was so sick.

Thank you especially to the vet we saw last night (I don't know your name, I'm afraid). You were very kind and understanding when we were in a very emotional state.

Best wishes to you all, and thank you again.
Jeanne Eastoe.
